Supplier of high quality standard & bespoke
Non-Threaded Fasteners

Grip Rings

Grip Rings are axially fitted Circlips for shafts without grooves.

Due to their large section height they result in offering a high gripping pressure.

We can offer both Metric & Imperial Grip Rings which go by the following references:

Metric – M1440

Imperial – N1440

We can offer these Grip Rings in standard Carbon Steel, but certain sizes are available in Stainless Steel.

These parts can be offered in standard Self-colour finish & Bright Zinc Plate.

Please find on the pages below, the standard sizes of Grip Rings we can offer. If you can't find the size you're looking for, please don't hesitate to contact us so we can help you find what you need.
