Supplier of high quality standard & bespoke
Non-Threaded Fasteners

Serrated Safety Washers

This unique design of Disc Spring Serrated Washer have a distinct advantage of having serrations on both surfaces that when deflected (tightened on to the mating surfaces, offer a good grip that helps prevent loosening of nuts, bolt and screws.

This product is particularly useful in such applications where vibrations are concerned. Such as washing machines, drills etc.

These are available in a Light & Medium Duty and due to the reduced wall thickness, are compatible with socket type screws.

We can offer these Serrated Washers in materials such as:

- Carbon Spring Steel
- Stainless Steel

Please find on the pages below, the standard sizes of Serrated Safety Washers we can offer. If you can't find the size you're looking for, please don't hesitate to contact us so we can help you find what you need.
